2 / CRUSHING

Type FS Single Toggle Crusher

Type FS Single Toggle Crusher employs a single reciprocating toggle for compressing the feed. Since this single toggle crusher is capable of crushing lumps as large as several hundred millimeters in diameter, it is used for primary and secondary crushing. Being simple in construction, the single toggle crusher requires a comparatively small installation space and is easy of maintenance and inspection. The single toggle crushers have a large crushing ratio and a rugged construction to assure stable crushing operation.

Hydraulic setting mechanism (option)

Model	Feed opening mm	Crushing capacity t/h											Motor kW
		Discharge clearance (open setting) mm											
		50	60	80	100	125	150	175	200	225	250	300	
FS-3020	750×900	48	63	72	98	117	138						37~45
FS-3624	900×900				108	132	164	186					55~75
FS-4230	1050×750				186	217	245	264	304				75~110
FS-4840	1200×1000					275	312	348	382	416			110~130
FS-5442	1370×1050					330	370	410	460	500	530		130~150
FS-6048	1500×1200						425	468	510	550	590	640	150~190
FS-7254	1800×1370						575	630	680	725	770	845	200~250
FS-8460	2100×1500							850	910	955	1000	1110	250~300

Type FSR Single Toggle Crusher

Type FSR Single Toggle Crusher can effectively be applied to a wide variety of materials, although it is most suitable to crush reinforced concrete. It is equipped with a device which automatically detects an unusual load caused by entry of foreign matter and prevents the crusher from jamming. The crusher can be operated and adjusted easily by pushbuttons. The lead time for delivery of standard consumable parts of the crusher is short.

Type F Single Toggle Crusher

Like Type FS, Type F Single Toggle Crusher employs a single reciprocating toggle for compressing the feed. Thanks to a small angle of inclination of the crushing chamber, the crusher is free from choking and capable of efficiently producing fine grains of uniform size.

Model	Feed opening mm	Crushing capacity t/h											Motor output kW
		Discharge clearance (closed setting) mm											
		10	15	20	25	30	40	50	65	80			
F-108	250×150	1.7	3.3	5.0	8.3								5.5
